**Roback's Blood Pills** Are undoubtedly the most valuable of all the Cathartic Pills offered to the public—operating by virtue of a special affinity, for the mucous membrane of the bowels; being *sugar coated* they are specially adapted for the use of children, and are unquestionably one of our most satisfactory cathartics, and should be in constant use in domestic practice.

**Dry Goods and Auction Sales.** On Monday next, the Messrs. Barker & Co., Market street, will offer for sale the greatest bargains, everything considered, now offered in our city, in Silks, Dress Goods and other Dry Goods, they having purchased largely at the great eastern auction sales, and proposing to sell at a very small advance. Country merchants, as well as buyers at retail, should remember this.

**Surprising.** It is actually surprising how soon our people have learned to prize that invaluable article known as Coe's Dyspepsia Cure. It certainly acts like magic, for it will cure the very worst cases of dyspepsia, and enable the patient, who has lived for years on Graham bread and the plainest food, to eat anything he chooses without fear of distress. It is considered the most valuable medicine known for all diseases of the stomach and the bowels. The sole agent for Pittsburgh, wholesale and retail, is Joseph Fleming, Druggist, No. 84 Market street.

**Fires Have Been** Quite frequent of late. Would not the Telegraph Fire Alarm be beneficial at present. Pittock, by reducing the prices of Albums, Gold Pens, Wallets and Penknives, is being greatly benefitted.

**The Grand Secret.** The grand secret in medication is to help Nature. Sustain and Regulate—these are the Alpha and Omega of the only theory of cure that has common sense for its basis. If the nervous system is shattered, the muscles weak, and the mind, like the body, in a state of partial collapse—what is it best to do? Reason teaches us the answer:

Build Up Your Man.

Brace him up as you would brace a tottering edifice. The pabulum he needs is a Tonic Alterative. Bring him up out of the depths of Debility and Despondency.

With Hostetter's Bitters.

They cannot injure. A child may take them in doses suited to its years, without the possibility of harm. The enfeebled vital powers are as sure to respond energetically to their action as the wilted grass is to erect its blades under the vivifying and refreshing rain. In all cases of debility the Bitters are absolutely required. There is no substitute or succedaneum that will fill their place. Resort to this most wonderful of Modern Tonics,

And All will be Well.

Bear in mind that in Dyspepsia, Intermittent Fevers, Billious Disorders, and Affections of the Nerves, no other medicine will produce one tithe of the good effect that invariably follows the use of this excellent Invigorator and Corrective. Sold everywhere.—*N. Y. Tribune, Oct. 27, 1865.*

**Hostetter's Bitters** Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

**Spring and Summer Goods.** The well-known store of Mr. John Weier, Merchant Tailor, No. 136 Federal street, Allegheny, has been lately fitted up with a new assortment of spring and summer goods. The stock has been well selected, and embraces all the numberless articles needed for gentlemen's garments. A large stock of ready-made pants, coats, vests, &c., will also be found in his establishment. His stock of furnishing goods cannot be surpassed. Persons desiring to purchase a good suit of clothes would do well by giving Mr. Weier a call.

**Thomas W. Parry & Co.,** Practical Slate Roofers, and Dealers in American Slate of various colors. Office at Alexander Laughlin's near the Water Works Pittsburgh, Pa. Residence, No. 78 Pike street. Orders promptly attended to. All work warranted water proof. Repairing done at the shortest notice. No charge for repairs, provided the roof is not abused afte. it is put on.

**Carpenter Jobbing Shop** Having returned after an absence of three years in the army, I have re-opened my shop for all sorts of jobbing in the carpenter line at the old stand, Virgin Alley, between Smithfield street and Cherry Alley. Orders solicited and promptly attended to.

### Matters in New York.

New York, May 11.—The oil refinery of Messrs. Phyfe & Laird, in South Brooklyn, was destroyed by fire last evening.

The *Commercial's* special says: The protest of the New York Chamber of Commerce against the cotton tax is producing a marked influence, and certain Senators in the case of a failure to defeat the tax bill, will attempt a reduction to five cents per pound.

The famous trotting horse Dexter, was sold at auction on Union Course, L. I., on Wednesday for $14,000.

Important testimony was given to-day before Commissioner Betts, concerning the nature and properties of nitro-glycerine for mining and military purposes, by Tail P. Shaffner and Professors Shutze and Nobel.

The Christian Union Association held their third anniversary and communion service yesterday afternoon at the Fifth Avenue Reformed Dutch church, Rev. Dr. Vermilyes. The ceremonies consisted of reading a report of the progress of the Association since its organization, the statement of the Executive Committee, reading of Scripture, singing, addresses, and the administering of the Sacrament of the Lord's Supper.

The anniversary of the Howard Mission and Home for Little Wanderers, was celebrated last evening at the Brooklyn Academy of Music, in the presence of a full audience. From the Treasurer's report it appeared that the receipts of the past year were $[illegible], and the expenditures $[illegible]. About $10,000 was collected at the meeting of the 13th.

The anniversary of the American Congregational Union was celebrated last evening in Plymouth church, Brooklyn. Speeches were made by ex-Governor Buckingham, of Connecticut, Rev. Dr. C. B. Boynton, Chaplain of the House of Representatives, Maj.-Gen. Howard and Rev. Henry Ward Beecher, after which a collection of $6,000 was taken up to aid in building a Congregational church at Washington.

### The Bayne & Co. Bank Failure.

Baltimore, May 11.—The result of the failure of Messrs. Bayne & Co., of this city, is already know to the public. The failure of the Merchant's National Bank at Washington appears to have been more disastrous financially than at first supposed. Four of our city banks at least, are sufferers. One of the oldest and most reliable is said to have lost about three hundred and ninety thousand dollars, which will no doubt somewhat curtail dividends for a time. One other is said to have lost a hundred thousand dollars by the same operation, and besides these losses many private individuals have lost largely.

### Fire in Baltimore—Loss $50,000.

Baltimore, May 11.—A fire took place this morning on the wharves in the rear of No. 104 Federal street, which destroyed property to the amount of fifty thousand dollars. Among the principal losers are Franklin Snow & Co., fish dealers; Jesse Tiercel & Co., and W. H. & S. L. Emery, dealers in coal and wood; and Freeman & Co. Their losses are mostly insured.

New York, May 11.—The *Tribune's* special says: General Hancock's Board, who are testing breach-loading firearms, were visited to-day by General Grant and Secretary Stanton, who are much interested in the experiments. The new breach-loaders are all tested with gradually increased charges up to ninety grains of rifle powder and four balls; but a small portion of the new models stand the test. The Gatling gun, built like a small cannon, was fired to-day before General Grant with great success.

The prospect of Dr. Sayers being able to upset the existing quarantine arrangement in New York and substitute a new set of officials, through an act of Congress, looking exceedingly dubious in the Senate to-day.

The printers of the *Globe*, laboring under the notion that they have a secure and fat thing of the printing of the debates, have raised the price to twenty cents a copy to the public. The Government printer estimates that it can be done at the Government office for fifty thousand dollars per annum, and in less time. Action tending to the closing of the present contract is now being had.

As an evidence of the extraordinary activity in the disposal of the public domain, the Commissioner of the General Land Office states that in the month of April last patents for California claims were issued amounting to sixty-seven thousand six hundred and thirty-nine acres. During the same period Oregon donation patents covering thirty-seven thousand eight hundred and fifty-seven acres were issued.

The *Herald's* special says: Contradictory reports have been in circulation for some weeks past concerning the Collectorship of the port of Chicago. We are finally able to announce that Walter B. Skates' name will be sent to the Senate for confirmation to-morrow, and that Brig. Gen. Mann will be appointed Collector of Internal Revenue for the Chicago District.

As an evidence of the manner in which the proposed new five per cent. loan would be acceded to by business men and bankers, it may be interesting to know that a wealthy gentleman has already made formal application for $200,000.

The *Times'* special says: It is stated that the Senate has postponed the consideration of the nomination of General S. F. Carey, as Collector for the Second District of Ohio, upon the request of many of the leading merchants of Cincinnati, who wish to be heard on the subject before final action is taken.

Mr. Seward sent his protest, which has been published, against Austria sending troops to Mexico, at the same time that he wrote to our Minister, saying that if the troops had already gone, he (Motley,) was instructed to withdraw in case any troops should depart after the reception of his protest.

Washington, May 11.—The President has approved the joint resolution providing that Parrafine Oil, not exceeding in specific gravity 65 degrees, Baum Hydrometer, the product of residuum, of distillation of crude petroleum and crude oil, the product of the first and single distillation of coal, shale, asphaltum, peat, or other bituminous substances, shall, from and after the passage of this joint resolution, be exempt from internal tax or duty.

The President has also approved the bill extending the jurisdiction of the Court of Claims. This Court can now hear and determine the claim of any Paymaster, Quartermaster, Commissary of Subsistence, or any other disbursing officer of the United States or his administrator, or his executors, for relief from responsibility on account of losses by capture or otherwise, while in the line of his duty, of Government funds, vouchers, records and papers in his charge, and for which such officer was and is held responsible; provided that an appeal may be taken to the Supreme Court as in other cases, whenever the court shall have ascertained the facts of any such loss to have been without fault or neglect on the part of any such officers. It shall make a decree setting forth the amount thereof upon which the proper accounting officer of the Treasury shall allow to such officer the amount so decreed as a credit in the settlement of his accounts.

Washington, May 11.—The Internal Revenue Bureau, acting under the general law, requires all citizens of the south to render income returns for the year 1864, as well as for 1865. Some of the rebel officers residing in Alexandria, Virginia, are startled by the calls of Assessors upon them to furnish the required statements, and are surprised that the rations received by them in the Confederate army are estimated at forty cents per diem. One of them expressed his readiness to pay his tax in Confederate money, but this, of course, was declined.

James Robb an authorized agent of the State Treasurer and Auditor of Louisiana, has arrived here to receive bonds belonging to the New Orleans Banks, which had been deposited by them with the State Auditor, and were subsequently captured at Shreveport by Gen. Sherman. The Secretary of the Treasury ordered these bonds, when properly identified, should be delivered to the State Auditor or parties owning them, or any duly authorized agent.

J. Ross Browne, well known to the literary world, has just arrived here from Arizona, having thoroughly explored that territory. He says it is highly improbable, scarcely possible, that Col. Bennet, who was in command of Fort Goodwin, permitted himself to be surprised by a large body of Indians, and the garrison butchered. So far from there being two thousand savages engaged in the reported wholesale massacre, he says there are not more than 700 or 800 fighting Appaches in the entire territory, which in no part is capable of subsisting so large a number, and especially after the severe winter. At all events, the report is greatly exaggerated.

Lieutenant General Grant has instructed the Military Department commanders to abolish the districts under their command as rapidly as circumstances will permit. In some cases, he has recommended the conversion of the district into a military post.

### Radical Meeting in St. Louis.

St. Louis, May 11.—The Radical meeting last night in commemoration of the capture of Camp Jackson five years ago, was one of the largest and most enthusiastic gatherings that ever assembled in that city. Speeches were made from three stands. Governor Oglesby, of Illinois, Governor Fletcher, Secretary of State Rodman, Chas D. Drake, and several other distinguished persons, were among the speakers. The following resolutions were unanimously adopted:

*Resolved*, First, The question of the reconstruction of the rebellious States belongs to the people through their Senators and representatives in Congress and not to the Executive. We cannot approve of the attempt of the Executive to organize and recognize the existence of State Governments in those States without the consent of Congress.

Second. While we are opposed to the adoption by the General Government of a policy of revenge in its dealings with those recently engaged in rebellion, we highly reprobate the policy of placing the government of States to be reconstructed in the hands of those who have participated in the rebellion against the Federal Government.

Third. We are unalterably fixed in our opposition to the admission to seats in the National Legislature of persons who have actively participated in rebellion, until all questions growing out of it are settled.

Fourth. That the wisdom and firmness of the Senators and Representatives of Congress, displayed in the passage of the Civil Rights bill over the veto of the President, merits the warmest approval of all true friends of freedom and liberal government.

Fifth. We regard it as the only true policy not to admit any Representatives of the late rebel States into the National Legislature until they have given ample guarantees for a truly republican form of government in future, and we are entirely opposed to the repeal or modification of the so-called Congressional test oath.

Sixth. That the national policy known as the Monroe doctrine has become a recognized principle in the republic, and the establishment of an empire on our borders upon the ruins of a republic cannot be tolerated.

Seventh. That we are not opposed to, but are in favor of an amendment to our State Constitution that can more perfectly guarantee the citizen in the enjoyment of his civil and religious liberties.

Eighth. That we hold it to be the duty of Congress not to adjourn before March 4, 1867, unless the reconstruction of the Union has been settled before that time, in the sense of the principles laid down in the Declaration of Independence.

## HEAD-CENTRE STEPHENS' MISSION.

### Fenians to Fight in Ireland.

### KILLIAN ISSUES A WAR BULLETIN.

### President O'Mahony Resigned.

### TREASURER KILLIAN REMOVED

### Iron Clads Being Fitted Up.

New York, May 11.—Mr. Stephens, the Head Center of the Fenians, who arrived here yesterday, was met on his arrival by a committee of the Fenian Brotherhood, and by thousands of Irishmen who were anxiously waiting for his arrival. He proceeded from the wharf to the Metropolitan Hotel, followed by the crowd, where he will remain for the present. Mr. Stephens remained in his room conversing with the committee, and receiving the calls of such friends as he chose to meet. In familiar conversation with the reporter of the press, Mr. Stephens gave a few hints of the objects of his mission, and confidently asserted that the Irish army would fight on its own soil ere the expiration of the present year. The Committee of Arrangements expect the Common Council to give Mr. Stephens a reception. There will also be a grand demonstration at Jones' Wood, when the Head Center will fully explain the object of his mission to this country.

Mr. Stephens was serenaded by the Ninety-ninth Regiment, Col. O'Mahoney, who arrived at his hotel about midnight. Mr. Stephens made a short address, not lasting over ten minutes. His manner of delivery was slow, and his voice was so inaudible as to be scarcely heard. He said he did not belong to any party, but came here to unite all the Irish people, and he should let no man be accused until he was fairly tried and found guilty. Party expressions had been doing a great deal of harm to the cause, and he advised the sensible-minded Fenians to refrain from such a habit. He said he came here by invitation, and should keep quiet for a time. When the committee now appointed to inquire into the matters of the Irish Republic had made their report, then he would have something to say. After expressing thanks for the serenade and other demonstrations, he concluded his remarks by saying that the people of Ireland were prepared for a long time, but they had been disappointed in not receiving support before this.

Mr. B. Doran Killian has issued a war bulletin to the brotherhood, in which he states that he has made no report of his action heretofore, because the public should not know anything connected with war purposes until the action proposed is defeated, or is successful. He proceeds to state that his action on the Eastern border is only temporarily baulked, not defeated. He concludes that he and Mr. O'Mahoney are on the best terms, not enemies, as the public report has it.

New York, May 11.—The *Commercial* has the following report of the *personnel* of the Head Center: The manner of Mr. Stephens is exceedingly affable; his smile is pleasant, and his greeting cordial. A small-sized man, with a light complexion, limited amount of light, wavy hair, and sandy whiskers, serves to make Mr. Stephens a person whose external appearance is not particularly striking. He possesses, however, a sharp, keen, penetrating eye, which sparkles with a merry twinkle when his face is wreathed in smiles. His manner is that of an educated Irish gentleman; his conversational powers are excellent, and his pronunciation possesses that slight brogue which graces the language when flowing from refined lips. Mr. Stephens, while apparently possessing the *suaviter in modo* to a great degree, has incidentally shown already by an occasional remark that he has the spirit and determination requisite to render him a man of good administrative ability. He hoped to be able to effect a reconstruction between contending factions here; but while he deprecated those estrangements he would do all in his power to bridge the chasm. At the same time he was competent to smash, and he would smash if necessary.

Col. Roberts had a cordial interview this afternoon with Stephens, and it was proposed to hold a meeting at Jones' Wood, at which Mr. Stephens will make an address, and the Committee was appointed this morning to make arrangements for such a gathering. It will not take place, however, until the important work of bringing together the different factions of the organization has been consummated.

Large numbers of Irishmen have called upon Stephens to-day, to whom he invariably said he had come out here to effect a reconciliation between the factions; he also stated that he had been induced to accept Col. O'Mahoney's resignation with this view. He had approved of the choice of O'Mahoney as Head Centre here, because he was opposed to the invasion of Canada, a measure which he was sorry to say had received the sanction of the Senate here. He also condemned the raid on Campo Bello. The last official movement of Head Centre O'Mahoney was to remove Killian the treasurer, which Mr. Stephens approves.

New York, May 11.—Col. O'Mahony resigned his position as Head Centre of the Fenians this morning, which was accepted by Chief Executive Stephens. Killian has been removed as Treasurer.

A Washington special says the House will probably not meet again till the middle of next week, as many of the members have gone home, and workmen are engaged refitting the hall for the summer.

It is expected that the Senate will strike out the third section of the reconstruction plan.

Orders have been received at the Brooklyn Navy Yard to place the United States steamers Huron, Narragansett, Oneida, Armadilla, Iroquois and Pequot in such order that they can be sent to sea on ten days notice.

## REBEL CLERKS IN DEPARTMENTS.

### Action of the House on the Reconstruction Report.

### OPINIONS OF THE NEW YORK PRESS.

New York, May 11.—The *Commercial's* special says an examination of the antecedents of the clerks in the various departments, under Messrs. Green and Clay's resolutions, shows that several have been in the rebel army. One of these is a near relative of Senator Cragin, of New Hampshire.

Judge Field and General McCook, Minister to Sandwich Islands, sailed for San Francisco to-day.

The *Post* says editorially of the action of the House on the reconstruction report that the first and fourth sections are superfluous and unnecessary. The third section, which disenfranchises masses of southern people until after 1870, is we believe condemned by judicious men as injurious and productive of strife and hostility, while the second section is eminently just, and necessary, and expedient, and all that is required upon the subject. We hope the Senate will judiciously prune away the superfluous substance from this amendment, and present to the States a measure of whose justice and propriety there can be no doubt.

The *Times'* makes no editorial comment, but in its Washingtn dispatch gives this explanation of the vote: Mr. Stevens then rose to close the debate, and made an acrimonious, bitter, vindictive speech, in which he appealed to the passions and hatred of his fellow members to oppose any effort to change this proposition. He then moved the previous question, and the disgraceful game of the democrats was at once apparent, as on the passage of the district suffrage bill. On this occasion the copperheads came to Mr. Stevens' rescue to prevent any amendments to the joint resolution. There was a clear majority on the republican side, in favor of amending by striking out or changing the third section. Mr. Stevens knew this and summoned his copperhead allies to sustain his demand for the previous question. This they did and the demand was sustained, nearly all the Democrats voting with Mr. Stevens. Then on ordering the main question to be put, the yeas and nays were demanded in order to get these copperheads on record. This frightened most of them, and at the close of roll-call, there was one majority against ordering the main question, whereupon such worthies as Jacob Rodgers, of New Jersey, Kerr and Niblock, of Indiana, Eldridge, of Wisconsin, and Chanler of New York, the rebel wing of the Democratic party in the House either changed their votes from negative to affirmative or asked that their votes be recorded when the main questions was ordered by five majority. The Republicans then wheeled into a solid line and passed the resolution by the immense majority of 91 votes, the Copperhead faction, powerless for further mischief, sneaking away into their seats and recasting an insignificant vote against the proposition. By this coalition between the extremes, the majority of the Union party in the House was prevented from changing the resolution as they desired, but as the previous question is unknown in the Senate, it will undoubtedly be put in proper shape there, and the House will ultimately agree to it, despite the efforts of the factionists at both the extremes.

The *Herald* calls attention to Mr. Raymond's vote, and adds: The Constitutional amendment thus rushed through the House, has now to pass the ordeal of the Senate. In that body it may perhaps succeed and it may be doomed to a failure, but if it pass the Senate, and if the two bills follow, there yet remains an appeal to the people.

The *Tribune* says: The amendment now goes to the Senate, and we trust will be carried by more than the requisite two to one. It is not what we would have, but we believe in taking the best we can get, as the true way to get more hereafter. The proposition may be amended here as it would have been in the House but for Democratic opposition.

### The Alleged Absconding Railroad Agent

Boston, May 11.—In the Supreme Court this afternoon, the bail of Henry G. Wheeler, the alleged absconding agent of the Atchison and Pike's Peak Railroad and Telegraph Company was reduced from $200,000 to $100,000, and the defendant ordered to be discharged from custody on furnishing securities in that amount or by depositing one hundred of the bonds in dispute with the Clerk of the Court.

### Alleged Absconding Agent Released.

Boston, May 11.—In the Supreme Court this afternoon, the bail of Henry G. Wheeler, the alleged absconding agent of the Atcheson and Pikes Peak Railroad and Telegraph Company was reduced from two hundred thousand to one hundred thousand dollars, and the defendant was ordered to be released from custody.

## CONGRESSIONAL PROCEEDINGS.

Washington, May 11, 1866.

### SENATE.

Mr. Grimes presented the joint resolution of the Iowa Legislature for the establishment of a National Bureau of Education, which was ordered to lie on the table.

On motion of Mr. Anthony, it was resolved that when Senate adjourn to-day, it adjourn to meet on Monday next.

Mr. Conness offered a resolution instructing the Committee on Printing to report upon the expediency of providing against the suppression or alteration of speeches in the *Globe*, which, at request, was laid over.

Mr. Grimes called up the joint resolution to carry into immediate effect the bill to provide for the better organization of the Pay Department of the Navy, which provides as follows: That for the purpose of carrying out the provisions of an act to provide for the better organization of the Pay Department of the Navy with the least delay possible, the President of the United States is hereby authorized to waive the examination of such officers of the Pay Department of the Navy as are on duty abroad and cannot at present be examined as required by law: Provided, that such examinations as are required by law, shall be made as soon as practicable after the return of the officers to the United States, and no officers found to be disqualified shall receive the promotion contemplated in the act herein referred to. The Secretary of the Navy is authorized to retain or to appoint under the existing laws and regulations such volunteer officers in the navy as the exigencies of the service may require until their services can be supplied by graduates from the Naval Academy.

Mr. Grimes offered an amendment, which was adopted, that hereafter naval contractors shall be staff officers of the navy. The resolution, as amended, was passed.

Friday next was, on motion, set apart for the consideration of the bills and reports from the Committee on Invalid Pensions.

Mr. Morgan presented a memorial from the citizens of New York, asking that Congress insure the burial of the remains of the Union soldiers, still exposed on the battle-field of Shiloh.

Mr. Chandler called up the joint resolution to prevent the introduction of the cholera into the United States.

The question was upon the amendment of Mr. Edmunds, changing the provisions in regard to the establishment of quarantine by the Secretaries of War, the Navy and the Treasury, from direction to authorization, and providing that they may do so instead of that they shall.

Mr. Sumner amended the proposition so as to make it read that it shall be the duty of the Secretary of War, and the Secretary of the Navy, under the direction of the President of the United States, to adopt and enforce a system of quarantine, &c.

The morning hour expired pending the discussion on this subject, and the Postoffice appropriation bill was taken up. The pending question being on Mr. Trumbull's amendment in regard to the appointing power.

Mr. Howard said that this discussion had taken a very wide range, so much so, that it seemed as if the gentleman who had taken part in it had become entirely oblivious of the subject matter before the Senate. He trusted he would not fall under the censure of the Senate, for following the example of others. It has been declared during this discussion, and on numerous other occasions, both in the Senate and out of the Senate, that the so-called policy of the President of the United States, who holds his office by virtue of the constitution and by reason of the death of President Lincoln, is but the same policy initiated and endeavored to be carried out by the lamented Lincoln, and we have been told by the Honorable Senator from Wisconsin, Mr. Doolittle, and the Honorable Senator from Pennsylvania Mr. Cowan, in very energetic and emphatic terms, that their policy is the identical policy of Mr. Lincoln in regard to the reconstruction of the rebel States. I take issue, sir, with these Honorable Senators upon this question of fact, and I deny that the policy of President Johnson is identically the policy of President Lincoln.

Mr. Howard continued his remarks at considerable length.

Mr. Cowan followed Mr. Howard and defended President Johnson and his policy.

At the conclusion of Mr. Cowan's speech the question was taken upon the following amendment: That no person exercising or performing, or undertaking to exercise or perform any duties of any office, which, by law, are required to be filled by the advice and consent of the Senate, shall, before confirmation, receive any compensation for his services unless commissioned by the President to fill a vacancy occasioned by death, resignation, or expiration of term during the recess of the Senate and since its last adjournment.

The vote was, yeas [illegible], nays [illegible], so the amendment was disagreed to. The bill was then passed.

The Senate went into executive session, and soon after adjourned.

## JEFF. DAVIS INDICTED FOR TREASON

### The Court to Meet at Richmond.

Norfolk, Va., May 11.—Late yesterday afternoon the United States Circuit Court, in session in this city, brought a true bill against Jefferson Davis for treason, and adjourned until the first Tuesday in June, to meet in Richmond.

Judge Underwood went North last night. He has a copy of the bill of indictment against Jefferson Davis.

### Fire in St. Louis.

St. Louis, May 11.—A large fire is now raging—11 o'clock—in J. Finley's coal oil works, corner of Fourteenth and Austin streets; several hundred barrels of oil are stored in the works, which will probably be consumed. The particulars can't be ascertained to-night.

## CITY AND SUBURBAN.

### Amusements.

Academy of Music.—Fidelio, claimed by some judges of music to be the finest Opera on the stage, was presented last night to the largest and most fashionable audience yet assembled within the walls of the Academy of Music, with perhaps the single exception of the night when Faust was played. The plot is admirable, and the entire piece abounds with fine music, and striking tableaux. Nothing could have exceeded the manner in which Mad. Johannsen performed her part of Fidelio. In the prison scene with Florestan she was grand. Mad. Rotter as Marcelline was excellent. Hermans, great as he always is, really excelled himself. We did not think that the part of Florestan had sufficient character in it for a man of Franz Himmer's calibre although he made the most of it. The entire piece was listened to with the utmost attention, and several portions of it were encored.

This afternoon and evening closes the operatic season. The past two weeks have been very laborious to Mrs. Henderson. She has been indefatigable in her endeavors to enhance the comforts of the patrons of the Opera, and if she has not reaped an abundant harvest it has been through no fault of hers.

William Tell, a great favorite, and deservedly so, with the Opera-going public, has been selected for the matinee this afternoon. Upon this occasion it has been determined to reduce the price of admission, in order that all may have an opportunity of seeing the splendid performance, and tickets to any part of the house will be sold at the low price of one dollar. To-night the closing scene of the labors of the Opera, offers an attraction far beyond that of any previous night. The splendid Opera of Faust, and the incantation scene in Der Freischutz will be produced. This bill cannot fail to fill the house from parquette to dome. Let no genuine lover of music miss this last opportunity.

Circus.—The grand combination Circus of Thayer, Noyes & Co. is still attracting immense crowds. The troupe consists of European and American artists of the first celebrity, who are possessed of fine talents, and perform their wonderful feats with matchless grace. This afternoon and evening will close the performances in this city, and the young folks will no doubt avail themselves of the opportunity of seeing the performing monkeys, asses, dogs, ponies, &c., &c.

Opera House.—Miss Louisa Sylvester, on the occasion of her benefit last evening, received a good house. This afternoon the "Seven Daughters of Satan" will be the matinee. The evening entertainment will be the drama of the "Evil Eye." On Monday the accomplished comedienne and prima donna, Miss Emilie Melville, will appear.

Pittsburgh Theater.—Yankee Locke makes his last appearance to-night, when the "Green Mountain Boy" will be represented. The performance to conclude with "Americans in Mexico." On Monday Miss Leo Hudson, the famous equestrienne actress will commence an engagement, appearing as Mazeppa.

Mike Lipman's Circus and Menagerie is announced to arrive on May 21st. It comprises an immense pavillion. See advertisement in another column.

**Successful Surgical Operation.**—A week or ten days since a widow lady named Williams, residing with her sister in Ritchey's Block, on Rebecca street, Allegheny, was taken suddenly sick, and upon calling Dr. Hoffman, he pronounced the cause of her trouble to be a rupture, and ordered for her convenience a French truss. The pain, however, was so severe that she could not wear the instrument, and Dr. H., on consultation with Dr. Gourard, of Manchester, came to the conclusion that instead of a rupture, the lady was suffering from the effects of an abscess, and yesterday Dr. Gourard performed a successful surgical operation, and the lady is now doing well.

**Fire in the Ninth Ward.**—About eleven o'clock last night a fire was discovered issuing from the lumber yard attached to McKee & Co.'s planing mills, situated in the Ninth ward, nearly opposite the Outer Depot, on a street leading to the river. A great quantity of lumber was consumed, together with a dwelling house and a number of sheds. At the time of going to press the engines were still on the ground, but had nearly mastered the flames. We were unable to obtain any reliable information concerning the loss, but it will be quite heavy. The fire it is believed was incendiary.

**Found Dead.**—John Dobson, of Beaver township, Jefferson county, a returned soldier, was found dead on last Saturday. Mr. Dobson had lately sold his farm to Mr. Hoffman and removed to Beaver township. The day before he was found, he had gone back to drive home his sheep, which were straying around the old place. It is supposed that while running after them, he fell and ruptured a blood vessel, as blood issued from his mouth; he apparently died as he fell.

**Iowa Land.**—Special attention is invited to an advertisement on the second page of this morning's paper, in regard to a farm in Iowa offered for sale. A cheap bargain is offered for a few days only.

### Court Proceedings.

United States Court—Judge W. McCandless presiding.

This court met at the usual hour yesterday morning, when the case of the United States vs. Salvadore Popara was called up. The defendant was indicted for passing counterfeit postal currency of the denomination of fifty cents. The defendant was arrested in Meadville, Pa., on the 20th of December last. A few days previous to his arrest the defendant had rented a house for the purpose of opening a barber shop. He visited an eating house in Meadville, and in payment for his dinner he tendered a counterfeit fifty cent note. He was arrested some two days afterwards, and in his possession were found two other counterfeit notes of the same denomination as that passed at the eating house. On searching the house occupied by defendant, the officers found one hundred and seventy-six pieces of the same stuff, which were carefully laid away in a box containing soap and shaving utensils. The defendants alleged that the box and contents belonged to a former occupant. The prosecution, however, showed that the notes found in the possession of the defendant and those in the box were of the same issue, and that the box is now in the possession of a foster brother of defendant. For the defense testimony was offered to show that the defendant, who is an Italian, had been in the country but six months, that he was unable to speak English, and was not acquainted with the Government money. The case was submitted to the jury at twelve o'clock. The jury returned a verdict finding the defendant *not guilty* on the first count and *guilty* on the second, and recommended him to the mercy of the Court.

The grand jury returned the following true bills:

United States vs. Silas Wiggins, indicted for having in his possession, with intent to pass, counterfeit fractional currency.

United States vs. Edward Beaton, indicted for a similar offence.

District Court.—Judge Williams presiding. Court met as per adjournment. After hearing the evidence for the plaintiff in the case of Brown vs. the City of Pittsburgh, reported yesterday, ordered a judgment for non-suit to be entered. The Court then proceeded to hear the case of Weisker Brothers, of New York, vs. the Pennsylvania Railroad Company. This was an action to recover the sum of $5,000 for the loss of merchandise shipped by the plaintiffs at New York, in 1861, and consigned to J. D. Behrne, their agent at Pittsburgh. It appeared that the goods arrived here safely about the 9th of September, 1861, but Mr Behrne was absent from the city, and having no place of business at which to receive the goods, the company had them stored at the warehouse of Hoight & Co., on Liberty street, for safe keeping. On the night following the warehouse took fire and was consumed, together with the goods of plaintiffs stored therein. Judge Williams held that the responsibility of the Railroad as common carriers ceased as soon as the goods arrived at their destination. If the consignee was not present to receive the goods, then the Company became responsible merely as warehousemen. The jury were instructed that if the plaintiffs had not shown negligence on the part of the defendants as warehousemen their verdict must be for the defendants. The jury found for the defendants.

Common Pleas.—Judge Stowe on the bench. No business worthy of notice transpired in this court yesterday.

### Before Alderman Strain.

This Alderman yesterday did a rushing business, and his office is now becoming the popular rendevous for all parties having grievances to be redressed. At this time, however, most of the police business is of the "small fry" nature.

Jane Shallenberger and Elizabeth Timmons are sisters living on Boyd's Hill, but Elizabeth, it seems, disregarding the principle that peace and amity are true sisterly attributes, committed an assault upon Jane the other day, for which she was arrested at her sister's suit. While in the Alderman's office yesterday she was so rude as to call Jane a liar, and struck her in the eye with her clenched fist. The Alderman committed her in default of bail for a hearing on Monday.

Information was made by Michael Kelly against Frederick Hines, charging him with false pretenses. The prosecutor alleges that he purchased of Hines a horse at the horse market, foot of Irwin street, paying him $65, the latter alleging that the animal was "sound as a dollar." On putting the horse in the stable he lay down like a dog, and he afterwards found that he couldn't be persuaded to work. A warrant was issued for Hines' arrest.

Michael Fisher makes an information against Robert Bunton, charging him with false pretense. He alleges that in Temperanceville in February last, Bunton came to him and represented himself as William Bailey, and engaged him to haul coal to the amount of forty dollars, from that place to this city, and also to Minersville. Fisher had never received the amount due him, and has since ascertained that his true name was Robert Bunton, and that he was an irresponsible party. A warrant was issued for Bunton's arrest.

A hearing was had in the case of Philip Dandritch, colored, charged by John Fowey, tavern keeper on the corner of Wood and Water streets, with the larceny of three bottles of whisky. There being no evidence to sustain the charge, the case was dismissed.

Margaret Norton made an information for assault and battery against John Conlon. The latter is engaged at the Fort Pitt Glassworks, in the Sixth ward, and it is alleged that he struck a son of the prosecutrix, who is under his employ, hitting him on the eye and nose, and also burned him on the back of the neck with a hot iron. A warrant was issued.

Wm. Jackson preferred a charge of assault and battery against David Parkes, upon which a warrant was issued. The affair occurred on the Plank road, near Dam No. 1, and Jackson alleges that Parkes caught him by the throat, and otherwise abused him. Patrick Higgins also preferred a similar charge against James Quinn, on which a warrant was issued.

Patrick Moran brought a suit of surety against John Friel, who he alleges caught hold of him in the market, and threatened to do him bodily harm. The parties are rival hucksters. A warrant was issued. Rachael Lane also instituted a suit of surety against her husband, Henry B. Lane, for threatening to take her life. The parties live on East lane, Allegheny. Warrant issued.

A warrant was likewise issued for the arrest of Martin Ruban, charged by John Conolin with assault and battery. The parties hail from Hardscrabble.

### Patent Medicines.

We are not among those who, through an obliging disposition or for a consideration, are willing to puff anybody and everything. Particularly are we opposed to the quack nostrums of the day known as patent medicines, which the proprietors unblushingly publish to the world will cure all the ills that flesh is heir to. If it could be definitely ascertained, we are inclined to the belief that patent medicines kill more people than they cure; hence we make it a point, as a general rule, not to recommend them to the public. Yet we cannot shut our eyes to the fact that some men, after years of research and expense have succeeded in compounding valuable remedies for certain specific diseases, which if taken with care and attention may prove of incalculable benefit to the suffering. Hence we depart from our usual rule to say a word in favor of "Hostetter's Bitters," the popularity of which is world-wide. In this community, where these Bitters have been so long manufactured and used it would seem useless to say anything in praise of their medicinal qualities, nor will we. They rest their claims to public confidence upon their intrinsic merits, and simply ask a trial. The manufacture of Hostetters Bitters has become a huge business in our city, the firm occupying Numbers 56, 58 and 60 fronting on Water and First streets, all of which are fully occupied in the manufacture, storage, &c., of Bitters. The establishment is well worth a visit by any one who is desirous of witnessing the vast scale upon which this celebrated medicine is manufactured in our city.

### Book Table.

"In Trust; or Dr. Bertram's Household. By Amanda M. Douglas. Boston: Lee & Shephard."

An American novel, by a New England woman, we judge, but the details do not savor much of New England life. It has a semi-religious cast, for which it is none the worse. The book is well written, and the interest of the reader is sustained from beginning to end. We do not consider it equal to many other American novels; but it is readable, and up to the average of the ordinary novels of the day.

For sale by Davis, Clarke & Co., Wood street.

### City Mortality.

**Installation.**—The Pittsburgh congregation of the Reformed Presbyterian Church having called Rev. A. M. Milligan, of New Alexandria, as pastor, and he having accepted, the installation services will take place in City Hall on Monday evening at seven and a half o'clock.

Mr. Milligan is a native of the State of Vermont. His ancestors by his mother came to this country in the "Mayflower." His grandfather came from Scotland, and served in the Revolutionary war in this country and his father served in the war of 1812. He has in this city a great many ardent friends and admirers; for, to know him is to love him, and to hear him once, is to beget a desire to hear him again.

**Gen. Grant.**—Thad. Stevens says that at the proper time he will go for Gen. Grant for President. When that "proper time" is he does not tell us; but we notice that all over the country, hotels, large and small, are being named after the great Union hero. Pittsburgh boasts of her "Grant street" and "Grant's Hill," and Allegheny City of her "Grant House," formerly named after the Irish patriot and statesman "Emmett." The house has been fitted up in good style, and under the management of Mr. Seely will prove to be, what Allegheny has long needed, a first class hotel.

**A Good Appointment.**—Auditor General Hartranft, and Surveyor General Campbell were sworn into office on Wednesday of last week. The former has appointed Daniel C. Maurer, of Lancaster, chief clerk, and the latter, Mr. Theo. K. Babcock, of Cambria. Mr. Babcock was at one time business manager of the Pittsburgh *Chronicle*, then under the control of his father, Rev. E. S. Babcock. For a number of years past he has been a clerk in the extensive iron works at Johnstown. His many friends in this city will be glad to hear of his good fortune, and we are sure no one is more deserving.

### Non-Episcopal Convention.

The Non-Episcopal Methodist Convention is now in session in Cincinnati. The delegates, although from distinct and differing denominations, are all imbued with the idea, and enthused with the hope, that a complete and satisfactory union into one national organization will be effected before separating to return to their widely distant homes.

The Convention was organized by calling Rev. Zachariah Regan, of the Muskingum Conference, to the chair, and choosing President McEldowney, of Adrian College, temporary Secretary.

The following is the list of delegates in attendance from the Pittsburgh Conference of the Methodist Church:

Ministerial—G. Brown, W. Reeves, G. B. McElroy, J. Scott, J. Robinson, J. D. Herr, A. Clark, T. H. Colhouer. Lay—J. Redman, B. Fordyce, W. J. Troth, R. H. Marshall, H. T. Reeves, J. B. Myers, J. Hawkins.

The Committee on Permanent Organization report as follows:

President—Rev. S. A. Baker, of New York.

Vice Presidents—Rev. J. Scott, Rev. P. T. Laishley, Dr. L. Lee, Dr. Cyrus Prindle and Rev. C. Moore.

Secretaries—Rev. J. McEldowney, Rev. G. B. McElroy and Dr. D. B. Dorsey.

### County Fair.

Judge Parke informs us that the Board of Managers of the State Agricultural Society have decided to hold their next Fair at Easton. This matter having been determined, the action of our County Society in fixing the time for holding the next County Fair is no longer conditional, but definite, it being agreed that in the event of the State Fair not being held at this place, the County Fair should be held on the 18th, 19th, 20th and 21st days of September. The premium list has not yet been completed, but it will be ready for adoption at the next meeting of the Board, which will be held on the last Wednesday of the present month. We are requested to state that the Committee on Grounds and the Improvement Committee will meet at the Fair Grounds on Saturday of next week, for the purpose of taking preliminary steps for having the grounds and buildings put in proper condition for the forthcoming exhibition. We trust the efforts of the Society will be heartily seconded by the public, and that the exhibition may prove an entire success.

### Fire in Collins Township—Oil Refinery Partially Destroyed.

A fire occurred yesterday morning about half-past ten, at the Champion Oil Refinery of McCreight, Cushman & Co., located in Collins township, the second refinery above the Sharpsburg bridge. These works are so securely constructed and the different divisions so detached that the fire was confined to the "Treating House," where it originated. This building was destroyed, together with about three hundred barrels of refined oil contained therein. The total loss will be some $10,000, which is covered by insurance in the Ætna, of Hartford, Harmony and Putnam, of New York. The fire was supposed to have originated from coal dropped by a passing locomotive. We learn that Messrs. McCreight, Cushman & Co. commenced clearing away the debris as soon as the fire had spent its force, and will have the works in complete running order again within twenty days.

**Fire This Morning.**—About two o'clock this morning, a fire broke out in a stable in the rear of the Red Lion Hotel, St. Clair street, which was occupied by horses belonging to Thayer & Noyes' circus troupe. The horses were all saved. Owing to the fact that all the steamers were at the large fire in the Ninth ward, none of them arrived on the ground until the fire had about subsided, although a number of hose carriages arrived on the spot in time to prevent the flames from spreading. There can be no doubt the fire was the work of an incendiary.

**Another Fire.**—Fires are rather too frequent these days, and if, as generally supposed, they are the result of incendiarism, it behooves our citizens generally and the police particularly to be on the alert to detect the miscreants who apply the torch to property and dwellings of unsuspecting denizens. Yesterday the barn and stable of Mr. Woodrow, at Homewood station, were destroyed together with their contents, including four horses. Loss $2,000. The fire was the work of an incendiary.

**Improved Sewing Machines.**—The attention of our readers is directed to the advertisement of Mr. E. H. Long, who as the agent of Shaw & Clark's improved Sewing machines, is doing a most thriving and increasing business. This machine, which gives great satisfaction, was first patented in 1856, since which time a number of desirable improvements have been made, constituting it now, literally, the "*Improved* Sewing Machine." All of these machines are warranted for five years. Mr. Long may be found at No. 112 Grant street.

**By Moonlight Alone.**—Many persons ridicule the idea of planting by the moon. Be this as it may, an old friend in whom we have great faith, states that all vegetables of the vine kind, as beans, peas, potatoes, &c., bear more luxuriantly if planted in the first three or four days after full moon; and that corn planted on the decline of the moon will make heavier ears that if planted at any other time. Let our gardeners and planters remember this, and make the experiment. Why not plant in the moon and see the effect?

**Sheep Shearing Festival.**—At the last regular meeting of the "Stock and Wool Growers Association" of Upper St. Clair, Snowden, and adjoining Districts, it was resolved to hold their First Annual Sheep Shearing Festival on Thursday, May 17th, on the farm of Wm. T. Fife, old Washington Road, 9 miles from Pittsburgh, commencing at 10 o'clock, A. M. We expect a general interest among the farmers, and all are cordially invited to participate. Dinner will be provided.

**A Good Family Paper.**—The *Leader* for this morning has been laid on our table. It is one of the best numbers of this spicy and interesting paper that we have yet seen. It is rich and varied in its contents, and its mechanical execution is excellent. The editor handles the pen and the scissors to perfection. We are happy to congratulate its enterprising publisher, John W. Pittock, on its success and increasing circulation.

**At the Charter Election** in Uniontown, on Monday last, J. Duncan Ramsey, Esq., Republican, was elected Burgess. At the breaking out of the rebellion Mr. R. was a law student, but on the first call for troops he entered the Army, where he remained up to the close of the war. Returning home, he resumed his studies and was admitted to practice in March last.

**Religious Conference.**—The General Assembly of the United Presbyterian Church meets in Allegheny the 31st day of May. A convention of ministers and elders is to meet two days previous. The subject of conference will be, "The present demands upon the U. P. Church, and how they may be met."

**Attention** is invited to the card of Day. Crawford, in our advertising columns, Commission Merchant, and dealer in Pig Metal, Blooms etc., located at 396 and 398 Penn street. He is a thoroughgoing business man, and those who patronize him may rest assured they will be liberally dealt with.

**Religious Notice.**—The Rev. Robt. Stephenson, of the Philadelphia Presbytery of the Reformed Presbyterian Church, will preach in the First Reformed Presbyterian Church of this city on to-morrow (Sabbath) morning, at 10½ o'clock.

## THE CROPS.

The slightest injury to the growing crops of grain is seized upon as a pretext for gambling in breadstuffs; and we are just now passing through a crisis of this kind, wheat and flour going up by the jump every day, interested speculators helping the excitement along by predicting a famine.

The occasion of all this is the injury done to the fall wheat in certain sections of the country by freezing out, the severe winter and lack of snow having been fatal to it within certain geographical limits. The injury is an admitted fact; but the conclusion drawn from it is unwarranted.

For, in the first place, the injury is not general. It extends, to be sure, over a considerable stretch of country; but, considerable as it is, it is comparatively but a small portion of this great land. It embraces Western Pennsylvania, Eastern Ohio, a part of West Virginia, and parts of Michigan, Indiana and Illinois; but, although it may be said to include whole counties in all of these States, the proportion to the uninjured portion of those States, is small. In Virginia, Maryland, Central and Eastern Pennsylvania, New York, Kentucky, Missouri, Tennessee, Iowa, Kansas and Minnesota, there is no injury from freezing out; while in the several States of Michigan, Wisconsin, Ohio, Indiana and Illinois, at least two-thirds of the crops are uninjured.

And in the second place, "man shall not live by bread alone," at least not by wheat bread. Indian Corn enters largely into consumption; and as there is plenty of old corn in the country with a fair prospect for the new crop, the substitution of corn meal for wheaten flour must eventually neutralize this attempt to force wheat and flour up to war and famine prices.

And in the third place, it is only the winter wheat that is injured. The crop of spring wheat is yearly growing larger at the west, and present high prices have undoubtedly stimulated the western farmers to sow a larger breadth this spring than usual.

We have seen just such panics as this before; and it has been demonstrated on every occasion that no local injury to the wheat crop has ever been wide-spread enough to exhaust the granaries of the nation. It is a large country—too large and embracing too many diversities of climate and soil to be affected everywhere by the same climatic cause. If the wheat crop fails in Pennsylvania it is apt to be good in Tennessee; and if the supply is short in New York by reason of bad farming and exhausted soils, the rich lands of Illinois make up the deficit. We do not, therefore, look with so much terror to the future as the flour speculation would seem at first blush to justify.

Besides all this, there is a predisposition on the part of the American farming interest to croak, and make the very worst out of any back-set. The late frosts afford a fair indication of this. We have been assured any day within the past two weeks by country gentlemen, that the fruit is all killed; that there might be an apple here and there; but that all the small fruits were destroyed and the bulk of the apple crop irretrievably gone. Yet the injury, after all, is but trivial, so far, and if nothing further happens we shall have an abundance of fruit. So, although the wheat in this region is badly injured, it is not all destroyed. Here and there are good fields, and others will yield a fourth or half a crop. And, after all, this is not a wheat producing section of country. The great wheat growing section is farther west, and gives much better promise than ours. As things look at present our advice to every one is, Trust in God and don't buy any more flour than you need.

THE PASSAGE OF THE CONSTITUTIONAL AMENDMENT, reported by the Reconstruction Committee, by a two-thirds majority in the House, is one of the hopeful signs of the times. It indicates an encouraging unanimity of sentiment among the Republican members of Congress, and a hearty concurrence in their action on the part of the people.

That the amendment will pass the Senate we will not allow ourselves to doubt. It will then be for the several States to pass upon it; and as it involves a final settlement of the reconstruction question upon the only basis that is likely to satisfy the majority of the nation, its approval by the legislatures of the several States may with good reason be looked for as certain.

The policy marked out by this amendment is not by any means so radical and thorough as the people might, with great propriety, have demanded. The Radicals have yielded a great deal for the sake of peace, and they ought to be met in the same conciliatory spirit by those who are scarcely prepared to go even as far as this amendment goes. It provides a way for the final, *permanent* settlement of the reconstruction question, by incorporating provisions in the Constitution which cannot be got out of that instrument by legislative trickery or through the temporary power of an adverse majority in Congress; and for that reason it should commend itself to general approbation.

Every one feels that there can be no certain, decisive settlement of this question by anything short of a Constitutional amendment; and as this amendment commands more strength than any other which has yet been proposed, and seems to be acceptable even to the Conservatives, excepting the national office hunters, we encourage ourselves to hope that we are at last approaching a satisfactory solution of a very difficult question.

THE Philadelphia *Press* says that the new Johnson paper in this city is to be called "*The Republic*," and that it is to be edited by SAWYER and KENNEDY. What do these fellows want with a new paper? With the *Commercial* and *Chronicle* both on their side, they might be content.

WE are indebted to Hon. ELI SLIFER, Secretary of the Commonwealth, for a copy of a pamphlet containing the general laws passed at the late session of the Legislature.

THE nomination of Gen. FERRY for U. S. Senator from Connecticut, in place of Mr. Foster, the present Senator, is an instance of the distrust felt by the people in men of conservative proclivities. Mr. FOSTER, well knowing the feelings of the people of his State, has almost uniformly voted with the Radicals; but he was known to have conservative inclinations, and it was feared that in the next six years these inclinations might lead him in the wrong direction. Hence he was not renominated; and we think this sober second thought of the people is in every way to be commended.

A CITIZEN of Memphis writing concerning the late massacre in that city, to Hon. W. D. KELLEY, says:

"When the miscreants had fired Collins' chapel (a large frame church, corner of Washington and Orleans streets, which would now cost fully $10,000 to rebuild,) they stood around the fire which lighted the midnight sky and made the night hideous with their hellish cheers for "Andy Johnson" and a "white man's government!" And the supporters of the President, aside from being midnight burners of churches and school houses, robbed women and children and men—sparing none on account of age, sex, physical disabilities, or innocence of crime—even burning women and children alive.

MR. DOOLITTLE denies that the President is in favor of admitting rebels to Congress. That, however, is a mere play upon words. The President denies that there *are* any rebels in the South. He says that any one who can take the oath to support the Constitution is "loyal"; and as they can all take it, *ergo*, the Southerners are all loyal.

### Report on Iron and Steel.

The United States Revenue Commission have laid before the Secretary of the Treasury a report in regard to iron and steel, comparing the resources of this country with that of Europe, Asia and Africa, from which is inferred that in 1830 the United States became the largest consumer, and so continues to this time.

The Commission is of the opinion that the production of iron in the United States during the last twenty-five years, the development of vast deposits of iron minerals and of fuel, demonstrate the capacity of the country to manufacture the whole quantity required for its progress in other manufactures, for the production of machinery and all other instruments of industry, and the continuous enlargement of its productive powers.

Our natural advantages for the production of iron and steel, and other great instruments of production, are not surpassed in the world. Our progress shows that we have learned to avail ourselves of these advantages. Ultimately, under a wise domestic policy, we shall become the largest producers of iron, and perhaps the largest exporters, as many of our mines are near the seaboard, and can furnish large quantities more promptly than any country except Great Britain, and better and more varied qualities than any country.

It must be long, however, before it can be our interest to send iron from our shores. The race for national power and wealth will be indicated not so much by our advance in the production of iron as by its consumption. Our industry can never grow to its full height but by that production of machines and implements of production and facilities for transportation which iron alone can furnish.

England now employs iron to the extent of 160 pounds per head of population, and exports considerably more than she consumes. We manufacture 1,500,000 and import about 200,000 tons. Our consumption does not yet exceed 120 pounds per head. But, considering the intelligence of our population, its activity, its ingenuity, its proclivities to the employment of iron, and the very superior quality of our iron, we may reasonably expect to reach a consumption of 160 pounds per head by the time our population numbers forty millions, making the whole product then equal to 3,200,000 tons.

It is very well known that the State of Pennsylvania could by no means of her own import yearly 50,000 tons of iron; but her mines, labor, food and capital can now furnish nearly 500,000 tons, worth over thirty millions of dollars, and can now, by the further aid of machinery, carry the value of this iron to sixty or eighty millions. Thus the people of Pennsylvania can by this medium exchange her minerals, labor and food for the labor and food and other raw materials of other parts of the country.

In regard to the manufacture of steel, the commission represents that no one who is well informed has a doubt that our country has nearly emancipated itself from such dependence, and is secure of a full supply of the best qualities of steel [illegible] peace and war, and for all the demands and exigencies of industry. It is fully demonstrated that the requisite qualities of iron are found within our boundaries, that the requisite skill and knowledge is now attained, and that the requisite confidence in American cast steel and common steel is now established.

It has been tried throughout all the manufacturing States by the most skilful manipulators of steel in fine cutlery, edge tools, in both heavy and delicate machinery, and the evidence of its success is complete and irrefutable. Testimony on that subject has been submitted with this report, which cannot fail to carry conviction to all friends of domestic labor, and to satisfy them that American perseverance and ingenuity has triumphed in the production of the highest quality of cast-steel—an object vitally important to the progress of national industry.

### Fruits of Reconstruction.

Rev. J. P. Bardwell, of Oberlin, agent for the American Missionary Association in Mississippi, was lately enticed into a law office in Grenada, Mississippi, and set upon by a ruffianly crowd that gathered in the street, in open day. The missionary to the freedmen could get no reason for the choking and beating which they proceeded to administer, except that he was working for the niggers. The Bureau agent, Lieut. Blanding, helped him wash the blood from his face and advised a complaint at once to the Mayor. On reaching the Mayor's office, Mr. Bardwell found that the man who had led the crowd and had beaten him with a stick, had already been before the Mayor, made complaint against himself, and paid the fine of ten dollars imposed by his Honor the Mayor, and was ready for more work at the same price. Three days after, Lieut. Blanding, agent of the Bureau, was attacked on the street and shot three times, and died in twenty-four hours.—*Cin. Gazette.*

IT is calculated that if no change is made in the existing basis of representation in the eleven States, they will have twenty-five more Representatives in Congress than the same number of voters in the States which have always been loyal. This will give them a very handsome advantage. In fact, their gain from the war in political power will be very considerable. Their friends and spokesmen say that they will never consent to renounce this pre-eminence over the mudsills of the North and West. So much the greater need of settling the question in determining the terms of their restoration. Because a voter in South Carolina or Mississippi had more power than one in Illinois before the war, when he was able to say that he could whip five Yanks, does it follow that he should still have it after it has been proved that his superiority was merely imaginary?—*Chicago Rep.*

FEW of the pioneer miners of California and Nevada, even those who discovered and opened the richest mines, reap great advantages from their opportunities. Gov. Sutter, the first discoverer of gold in California, is supported by a pension from the State; Comstock, who found and gave his name to the great silver lode in Nevada, is a vagrant trespasser in Montana; Alva Gould, locator of the Gould & Curry claim, is making shingles for a living in Washoe Valley; Marshal and Wemer, who found the first gold on the south fork of the American river in 1848, are both reduced to biting poverty; and so on.

THE reconstructed rebels of Tennessee are moving to form clubs to nullify the new franchise law, and extinguish the Radicals. These organizations they propose to call Johnson Clubs, on the ground that Andrew Johnson is now the leader whom they delight to follow in their crusade against the loyal men of the State.

### Congressional Nomination.

ALLEGHENY CITY, May 11, 1866.

*Editors Gazette:* GENTLEMEN—The people of this Congressional District will be gratified to see the announcement of the name of Hon. Thomas Williams as a candidate for nomination for a third term. Your brief but cordial notice of that announcement in the *Gazette* of this morning, is well conceived and well expressed; for this surely is no time for the exchange of such a representative as Mr. Williams for some untried man. We have revolution enough in the country without revolving Congressmen unnecessarily. Moreover, if we wish to say to the world that we adhere firmly to our principles, we cannot say so more emphatically than by adhering firmly to the faithful and well-tried exponents of those principles.

It is not probable that there will be any serious opposition to the nomination of Mr. Williams. There will be none whatever in this county, and, from present appearances, there will be none in Armstrong. Such harmony at home, when we have so much discord abroad, is very encouraging and cheering.

TWENTY-THIRD DISTRICT.

F. C. KELTON, of the firm of Kelton & Bancroft, Columbus, while giving directions for the repairs of the roof of the Gwynn Block, was seized with sudden faintness, and stepped to an open window in the third story, from which he fell, striking on the rough pavement in the alley below. His injuries were fearful; severe contusions about the head and face, compound fracture of the left thigh, compound fracture of the right elbow, compound fracture of the left wrist, and simple fracture of the right wrist. Though still living his recovery is regarded as hopeless.

THROUGHOUT Sicily it is the custom to eat strawberries along with sugar and the juice of an orange or two. The strawberries, a small kind, are served without their stalks, are crushed with the white powdered sugar, and the juice of an orange is squeezed over them. The result is a most fragrant and agreeable compound, much superior, in my opinion, to strawberries and cream. Indeed, I think it is all but worth while to make a journey to Sicily to be initiated into this mode of eating strawberries.—*Gardner's Chronicle.*

CATTLE DOWN, GOATS UP.—An Irish paper notices the fact that one unexpected and curious effect of the cattle disease in England has been to raise the value of goats to an extraordinary degree. These hitherto despised animals are now exported in considerable numbers from Ireland, and have been sold in several English counties at from £4 to £5 each; the ordinary price having been about 10s.

UNDER the frontier police bill, the Mayor of Buffalo nominated a Superintendent and Deputy, Republicans, whom the Democratic Councilmen refused to confirm. His Honor having occasion to go to New York, the Council assembled, chose an acting Mayor, elected two Democrats to the positions, picked the lock on the door of a room where the city seal is kept, and made out their commissions.

GOOD CROPS IN TENNESSEE.—The Bolivar (Tenn.) *Bulletin* thinks that in that region there will be put in cultivation this year at least double the quantity of land that was tilled in 1865. Many of the large fields that only served as pastures for the past three or four years are now being put in condition suitable for planting purposes.

THE St. Louis *Evening News* says a new Democratic paper is to be started in that city, with Mahony, of the Dubuque *Herald*, who was for some time a State prisoner in Fort Warren, and P. L. Hudgins, who was expelled from the old Missouri State Convention for disloyalty, as editors and managers.

IN all the indictments now prepared in the criminal court where a negro is accused of crime, the word "negro" is ignored, and the word "yeoman" inserted, precisely as in an indictment against a white man.—*Baltimore Gazette.*

## RELIGIOUS INTELLIGENCE.

The excessive indulgence in finery of dress has grown to be an enormous evil, and one that is attracting considerable attention. If this evil was confined to the fashionable vanities of the world, it would be legitimate in its proper sphere, but it is tolerated, yea encouraged even by those professing to be the followers of the meek and lowly Jesus, and flaunts unrebuked by the pulpit in the house of God. The evil existed as long back as the days of the prophet Isaiah, from the following portraiture of the daughters of Zion, who were given to walking with stretched forth necks and wanton eyes, walking and mincing as they go." While the love of finery has been indulged in all ages, the peculiarity of our times is, that they can be obtained more easily than in any former age. A servant girl with moderate wages can make more show and parade than persons in affluent circumstances could two centuries ago. The question, what is the dress suited to the worship of God? Dean Goodman says: "All of you be clothed in humility," is a very good general answer, this points out the general tone and color of the garment of praise, which befits a christian in God's house; but more particularly, study, neatness and eschew finery; and do this both for your own sakes and the sakes of others; for your own sakes—because what you must aim is to forget yourselves and think only of God. He says: 'Frippery and finery are offensive at all times and in all places; the real ornament is the "meek and quiet spirit;" that is of great price with God as with ourselves, that is an ornament which a Christian may take with him or her out of this world and wear for evermore, that is the necklace of angels, and while all other ornaments are in the eyes of God tinsel and worthless, the price of that is greater than fine gold. But frippery and finery in a church are offensive beyond all possibility of measure or description; it is to insult the God of the place, to scare away the angels, to shock the minds of the devout." One great disadvantage of extremely smart dress being worn on Sunday, is that persons so dressed will generally be afraid of injuring their clothes by kneeling. Independently of all consideration of going to church, this overdressing is wrong; it involves a degree of extravagance which ought not to be indulged, and is frequently supported at the expense of more pious purposes. It involves, too, the thoroughly wrong principle of dressing for dressing's sake, making dress an end not a means, putting the "lust of the eye" and the "pride of life" in the place of the decent covering for our nakedness. On the general question of the kind of dress suitable for Christian women, consult 1 Peter III. 3. 4.

—The annual meeting of the American Baptist Home Missionary Society will commence at Boston, on Thursday, May 17th, and likely continue until the 23d. The annual sermon will be preached on Sunday. The American (Baptist) and Foreign Bible Society will hold its 29th annual meeting, on May 19th. Addresses are expected from Rev. E. Kincaid, D. D., of Barmah, Rev. Thos. Armitage, D. D., of New York, and others. Rev. Dr. Dowling, of New York, will preach the anniversary sermon. On the 21st the American Baptist Publication Society, will hold its annual meeting. The 52d annual meeting of the American Baptist Missionary Union will commence on Tuesday, May 22d. All these anniversary occasions take place in Boston.

—The *Christian Instructor* has quite a lengthy editorial on the "Coming General Assembly" of the United Presbyterian Church, from which we learn that among the important items of business which will be brought before that body will be to perfect and expedite the work of revising the Book of Government and the Directory of Worship; consider the New Version of the Psalms, and making adequate provisions for the different Boards of the Church.

—Dr. Stuart Robinson, the rebel Presbyterian minister, who was forced to leave Louisville, Ky., during the war of the rebellion, on his return recently to Louisville, preached a sermon on "the sham religions of the present day." He is elected one of the commissioners to the O. S. General Assembly which soon convenes at St. Louis.

—The General Synod of the Evangelical Lutheran Church in the United States will meet in Fort Wayne, Indiana, May 17, 1866. The Moderator of the last Convention, Rev. Dr. Sprecher, will preach the opening sermon.

—Rev. L. D. Barrows, D. D., formerly of this city, now residing at Sanborton Bridge, N. H., has been chosen Corresponding Secretary of the new National Temperance Union, headquarters, we believe, at New York city.

—By the death of Mrs. Schlatter, a lineal descendant of the Swiss reformer, Ulrich Zwingli, the Zwingli family in Europe and America will become extinct.

—The boys of the grammar schools of New Bedford, Mass., have organized themselves into a society for the suppression of profanity and vulgarity in their schools.

—Nearly ten thousand dollars were distributed by the Philadelphia Methodist Episcopal Conference, at its session in April, to the worn-out preachers, their widows and children.

—According to the *Lutheran Observer* the English Lutheran Church interests are looking up in New York City. A better day seems to have dawned.

—An English Methodist Episcopal Church is to be built at Berlin, at an expense of fifteen thousand dollars. The American Minister, Ex-Governor Wright, is a member and an active leader of the church.

—There are in France 895 Reformed Church edifices, with 1,364 parochial schools, and 392 Lutheran Churches with 691 schools.

—At the great revival at Deleware, Ohio, one hundred and one of the converts are students of the Ohio Wesleyan University.

## SPECIAL NOTICES.

☞ AYER'S PILLS—Are you sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

**AYER'S AGUE CURE,**

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists.

The soil of the whole farm is good. The very best of fencing; a beautiful lawn in front, planted with shrubbery and trees. For a country residence, it is not surpassed, and for a profitable investment, there is no question.

There are two orchards of apple trees, in good bearing condition; peach, pear, plum trees and grape vines, &c. The land is well adapted for gardening purposes, being a short distance from the thriving borough of Elizabeth, creating a market at home for all the products. This property will be sold cheap and on good terms.

Also, a Farm of 117 acres, situate in Fallowfield township, Washington county, Pa., about 2 miles from the town of Bentleysville. The improvements are, first, a two story frame house with five rooms; second, a two-and-a-half story hewed log house; third, a No. 1 new barn, 80 by 40 feet; a good spring house, three large orchards of different fruit, apple, peach, pear, plum, quinces, cherry, &c.; 80 acres cleared; the remainder in good timber. The improvements are a good, comfortable, two-story Frame House, with 6 rooms, a large frame barn, carriage house, good corn crib, wash house, bake oven and a two-story stone spring house; about 150 acres cleared and in timothy and clover; a good orchard of apple, peach, pear and quince trees. The fencing is generally good. The land is of a good quality, abundance of limestone, and but a short distance from coal. This property will be sold very cheap.

Also, a Farm of about 26 acres adjoining the above. The improvements are a large two story Log House and a large frame barn; 175 acres cleared and under a good state of cultivation; a small apple orchard; a large two-story milk-house. These two farms united would make a first-rate Stock Farm, or will be sold separately.

Also, the best farm in Fairfield township, Westmoreland county, Pa., containing 240 acres; about 6 miles south of the Pa. Railroad. The improvements are two large hewed log houses, one of the largest and best frame barns in the township; two apple orchards. The whole farm is under a high state of cultivation. ## FINANCE AND TRADE.

FRIDAY, May 11, 1866.

Gold seems to be firm, being about three-eighths of a cent higher to-day than yesterday, 129. Governments are quoted firm at 108¼ for 1881's; 95½ for Ten Forties; 102¾ for Seven Thirties; 102@102½ for Five Twenties, and 100 for Certificates. In this market, brokers are buying gold at 128½, and selling at 129½.

There is still considerable inquiry for Columbia oil stock, and we have sales reported to-day at 29@30½. The improvement in the oil market, together with the removal of the government tax of one dollar per barrel, and an easy money market, have a tendency to infuse a little life in oil Companies, and it is possible and probable that the stock of producing Companies, such as Columbia, may yet appreciate in value considerably. There is no disguising the fact, however, that the great majority of these oil companies were, we might almost say, frauds from the first, and as such, have forfeited the confidence of our people.

In New York, the easy condition of the market, as a natural consequence, creates speculation, and gold and oil stocks are again becoming quite popular. Bennehoff Run sold there to-day at 10@10½, and United States brought 9½@9⅝.

—The Treasury is preparing to liquidate the amount of outstanding one year certificates of indebtedness, and the Treasurer of the United States, it is reported, has been instructed to receive and pay unmatured certificates of indebtedness with accrued interest to the amount of twenty millions if presented to him before the 1st of June. The total of these securities uncancelled on the 1st of May was $62,620,000, and the policy of reducing their amount gradually is good, as all such short dated obligations are a source of weakness and embarrassment to the Government.

—The Boston *Commercial Bulletin* says:

"The recent failures of two of the Lake Superior copper mining companies, the Pennsylvania and the Delaware, has excited but little attention among our 'operating' friends. Outside holders of copper shares, who have been waiting a long time for a rise, have, however, been made a little nervous by these explosions. Mr. Dupee's list reports these as both Philadelphia companies; the Delaware with a capital of $350,000, and the Pennsylvania $500,000. Neither of these companies has had the reputation of being copper-bottomed. The Pennsylvania sunk a million of dollars, the Delaware four hundred thousand."

—The further examination of the affairs of the insolvent Merchants' National Bank, at Washington, as usual on such occasions, shows worse than the first announcement. It now appears that there was on deposit from the Interior Department, on account of Indian funds, $32,967; Post Office Department, dead letter fund, waste paper fund, and disbursing clerk, $9000; Treasury Department, $5000, and other Paymasters and Quarters, $640,000, total, $687,000. Gen. Spinner holds above the amount necessary for the redemption of the notes of the bank about $140,000, leaving a loss for the Government of $547,000, without having the course to stockholders, or having anything from the general assets.

—A New York cotemporary thinks that "the proposition to redeem $20,000,000 of certificates of indebtedness is a step toward securing a money market upon which a consolidated five per cent can be introduced." "It may be, it is very like." The effect of putting the accumulated currency in the Treasury on the market in liquidation of certificates of indebtedness will be to not only cheapen the currency, but to make the money market more easy. This will tend to advance the prices of all Government loans, and when the six per cents shall be carried so much above par as to be relatively dearer than the five per cent loan at par, the plan of consolidation may be carried into effect. If the Secretary of the Treasury contemplates such a line of policy as this, and he has great power to such an end, he may effect much, but in putting up the price of Government sixes, he, by the same means, advances the price of all State, City and Company bonds, as well as the better class of dividend-paying shares.—*Phila. Ledger.*

## PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, May 11, 1866. }

The produce markets were devoid of any special excitement to-day, and Flour and Wheat, which have ruled excited and buoyant throughout the week, appeared a shade easier, though without quotable change. Provisions still, with an upward tendency, while Groceries are steady but unchanged.

GRAIN—We can report one car of Club Wheat at $2,20, and one car choice do at $2,30. Oats in good supply and lower—sales at 55 on track, and 60 from store. Corn is firm and scarce; prime yellow is selling from store at 90. Rye is selling at $1. No movement in Barley.

GROCERIES—Sugars are firm at 12 to 13 for Cuba; 12½ to 14 for Porto Rico; 17 for Crushed; 15@15½ for "B" Coffee, and 16@16¼ for "A." Coffee is selling in a regular way at 24@26 for common to fair, and 26@27½ for prime to choice Rio. Rice is quoted at 10½ to 11 for Rangoon, and Porto Rico. Molasses at 75@85. Teas are firm, and the finer grades are looking up.

FLOUR—Was not so much excited to-day, and while there was, apparently, more disposition manifested on the part of holders to sell, the market is firm, nevertheless, and prices are fully maintained as yet. Spring Wheat Family may be quoted at $10,75 to $11,50, and Winter Wheat do at $12,50 to $13. Sale of 100 bbls "Bartlett," on Thursday, at $10,75. Rye Flour is held pretty firmly at $6.

PROVISIONS—Bacon is firm with a continued fair jobbing demand, and we quote at 14½ for Shoulders, 17 for Ribbed Sides; 21½ for Plain Sugar Cured Hams; and 23 for Canvassed ditto. Lard is held firmly at 23, and Mess Pork at $32.

POTATOES—Continue to arrive pretty freely, but, as yet, the demand seems to keep pace with the supply, and prices, as yet, are pretty well maintained. Prime Peach Blows are selling from store at $1,25 per bushel, and $3,50 per bbl—$3,75 in a retail way. Sale of 1 car on track, at $1,20.

BUTTER—Continues very dull, the supply being considerably in excess of the demand. Prime fresh Roll cannot be quoted above 25, though some holders are asking 30.

EGGS—Demand fair and market steady, with sales reported at 16@18—mostly at 17@18.

CHEESE—Is dull and nominally unchanged—Western Reserve 19@20, and Goshen 22@23.

SEEDS—Flaxseed is wanted at $2½, and there is little or none offering. Timothy Seed is very scarce and held at $5@6. Clover remains as last quoted.

## PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE }
FRIDAY, May 11, 1866. }

CRUDE—The transactions in Crude were remarkably light to-day, refiners not seeming disposed to buy very freely at the advance, and besides, holders have but comparatively little oil to offer. It is true, there is a considerable amount in tanks, held by speculators, but as it was bought early in the season, the great proportion of it costing from 18 to 20 cents, in bulk, this oil cannot therefore be considered in the market at present, as it is held for an advance. Quotations may be fairly given at 15 cents, bbls returned and in bulk, and 26, bbls included, though we have one sale reported at 15½, and it is said that 20½, bbls included, was offered this afternoon. Sale of two lots of 500 bbls each, at 15; and 500, to arrive, at 15½. At Oil City, as we learn by telegraph, the market is reported firm at $5@5½, and $5 at the wells. There is some inquiry for shipment, and shippers in, consequence of the light supply, are experiencing some difficulty in filling their orders.

REFINED—There is a continued good demand for bonded oil, both for present and future delivery, and the market is very firm, with a tendency to still higher rates. We have but comparatively few transactions to report, however, which is owing to the fact that there is but little offering, refiners entertaining hopes of a still further advance, though quite a number of them could not sell, even if so disposed, as they have engagements enough to take all the oil they turn out for the next two months. Sale of 500 bbls, for August, at 46c, delivered at works; 500 for September, buyer's option, at 40; 500 for July, buyer's option; delivered in Philadelphia, at 45, and 1000 for September, at 48. The market closed quiet but firm, with considerable inquiry, and very few offers to sell. Free oil is quiet and nominally unchanged.

ARRIVALS—The arrivals of oil by the Allegheny River since our last report, were as follows:

## RIVER NEWS.

RIVER, WEATHER, ETC.

The river fell but very slightly yesterday, and the stage of water last evening was about three feet four or five inches. The weather during the day was cloudy and warm, and in the evening, the indications were considered favorable for rain.

The Revenue, from Portsmouth, Leni Leoti, from Parkersburg, and the Julia, from Zanesville, constitute the arrivals, and the two first named boats were the only departures. The Bayard succeeded in getting through Glass House on Thursday evening, and she is now moored at the wharf, where she will remain until there is a swell in the river. It is altogether likely that the company will substitute a low water boat in her place.

The new steamer Chieftan, in command of Capt. Robt. Abrams, has taken her place in the Brownsville trade, and will leave on her first trip this evening. She is a very handsome side-wheeler, is furnished with all the latest improvements, is in charge of careful and experienced officers, and has excellent accommodations for passengers.

The Kate Putnam, from Louisville, and the Columbia, from St. Paul, are somewhere between here and Cincinnati on their way up. It is hardly probable, however, that either of these boats will reach here until there is a rise.

The Pine Grove, Capt. Anawalt, is announced to leave for Cincinnati and Louisville this evening.

The Grey Eagle, from Parkersburg, was due here last night, but she will doubtless be delayed by low water. We are of the opinion that a low water boat will have to be put in her place, and that, too, very soon.

The Importer left Cincinnati on Wednesday with a full cargo. She discharged 100 tons there, and received 100 tons in its place. The Nora was advertised to leave on Thursday.

The Cincinnati *Commercial*, of Thursday, noticing the fact that a delegation of gentlemen representing the steamboat interest have left here for Washington to argue the petroleum question, remarks:

The impression exists that the law passed through the influence of railroad parties, who are desirous of monopolizing the transportation of this important staple exclusively by rail, with a view also of advancing the tariff. The shipment of petroleum by river is extensive; for instance, the Marietta packet Ohio No. 3, on her recent downward trip, owing to the recent restrictions, was compelled to refuse six hundred barrels destined for the Cincinnati market. So far as the danger is concerned, in transportation by steamer, we do not consider it as hazardous as cotton or hay. We have frequently recorded the burning of hay and cotton boats, but have yet to learn where a steamer burned from the transportation of oil.

The St. Louis *Republican* says:

Minnesota has 2,247 miles of shore line of navigable waters. In 1848 sixty-three steamboats arrived at St. Paul; in 1859, 1,068; in 1865, 2,147, and in 1866 the number of such arrivals will be at least 2,500. Most of the patronage of the public is given to the North Western Packet Company, or to the St. Louis boats. The former line runs daily from Dubuque and Dunleith to St. Paul, and are very popular with the public, being better, safer, larger and more attractive than the smaller boats of the upper river lines.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1860.

DR. KEYSER—My wife has been afflicted with a bad cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself for a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire so.

WM. WILSON,
Alderman, Fifth Ward

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half a bottle she was relieved. The second bottle cured entirely of her cough. JOHN DARIN,
Robinson street, Allegheny.

PITTSBURGH, December 31, 1851.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known this valuable remedy will do for others what it has done in my case. JOHN C. LITTLE,
Witness: R. M. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1858.

A WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.

JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. F. Maher, both of Blairsville, Pa., told us they would not be without it in their families. In fact, all who use it once want it again.

Yours, respectfully,
J. S. WATTERSON & SONS

January 30, 1860.

PITTSBURGH, November 15, 1858.

DR. KEYSER—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold.

I have been, more or less in my life, afflicted with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely.

In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever tried, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.

Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1865.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken. J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir: Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the noise out of my cough, and the worst one I was ever afflicted with. I have not used more than one-half of a bottle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "It is no quack medicine, would not suffer another such an attack for any consideration, or at any cost. I am confident I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this way as you think proper.

E. F. PRATT,
Messenger Common Council, Pittsburgh, Pa.

N. B.—I am no stranger to my fellow-citizens, and all who entertain doubts can consult me personally. E. F. P.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks—so bad a that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.

(Signed) J. W. SIMONTON,
No. 246 Liberty street, Pittsburgh, Pa.

January 9th, 1860.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experiment, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral," in a most stubborn case, with entire success. Next two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mulish, unsubduable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for one whole week, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the siege, we coughed our way to Keyser's, No. 140 Wood street, procured a fifty cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but unequal conflict with so formidable an adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1858.*
